

TREATMENT PROTOCOL**DYSURIA**1. Symptoms/Presentation:

- Painful or difficult urination
- Encourage inmate to drink 6 – 8 glasses of water per day.

2. Obtain medical history:

- How long has inmate had this condition?
- Has inmate ever had this problem before? If yes, what was done to help ailment?

3. Request inmate fill out a Health Care Request Form to see the Facility Nurse.

If symptoms are severe and unable to pass urine contact Facility Nurse, Facility Provider, pass on information and ask further instructions.
